Subject: Teresa Brewer Center Website Update - April 2006

To the TeresaFans emailing list:

The monthly update to the website is now available online.

April NEWS:

- **TERESA'S BIRTHDAY is May 7!** Send your greetings via the Fan Club now – visit the [HOME](#) page for email and snail mail links to speed your cards to Teresa!
- A new DVD, *The Original Amateur Hour*, features a 1938 recording of a 7-year-old Teresa. Bill Munroe provides all the details in [NEWS](#).
- As reported last month, Teresa's 1953 motion picture *Those Redheads From Seattle* is being restored and a gala screening is planned for later this year. Will Teresa appear at the screening? See [NEWS](#) for story and details.
- **Ask Teresa!** features Teresa's responses to eight new fan questions – including a question about one of our favorite songs, *Somewhere There's Someone Who Loves You*. This inspired us to post *Somewhere There's Someone...* as April's Song of the Month (see below.) See links on the [HOME](#) page or in [NEWS](#) > *Questions & Answers* to read recent questions and answers, or to ask Teresa a question of your own.

April monthly features:

- Each month we provide sample audio of one of Teresa's songs that is not included in the permanent audio library on the website. This month's Song of the Month is *Somewhere There's Someone Who Loves You* – Teresa's 1972 single. Find the Song of the Month by following the [Now Playing](#) icons on the [HOME](#) page or the [MUSIC](#) page.
- The 20th of our series spotlighting vintage print articles about Teresa appears this month – an April 1953 article from *TV Digest* Magazine. Follow the [Now in Print](#) icons on the [HOME](#) page or the [LIFE](#) page. (You'll need Adobe Reader installed to view the print article files, and be patient as the large file downloads.)

Happy spring! – from the Teresa Brewer Center (www.teresafans.org)
